An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Paragraph [001] has been amended as follows:

The present application is a continuation-in-part of U.S. Appl. No. 10/317,092 filed December 12, 2002, now abandoned, which claims the benefit of the filing date of U.S. Provisional Application No. 60/414,424, filed September 30, 2002. The disclosures of the above-referenced applications are incorporated herein by reference in their entireties.

Election/Restrictions

Claim 1 is allowable. Claims 12, 16, 36-37, 38, 72, 91, and 92 previously withdrawn from consideration as a result of a restriction requirement, specifically election of species, requires all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the election of species requirement between inventions of the species of bioactive components attached to polyalkylene glycol, as set forth in the Office action mailed on 10/10/06, is hereby withdrawn** and claims 12, 16, 36-37, 38, 72, 91, and 92 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present

application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971).
